Notes:

* Indicates a "C-" minimum required by the Gordon Rule

** Indicates a "C or Better" minimum required in Calculus I, II, III, Differential Equations, Physics I, and Chemistry

GEP = General Education Program (These courses may also satisfy Engineering credits)

The minimum GPA for a Mechanical or Aerospace Engineering Major = 2.25

It is encouraged that students take the FE Exam (typically taken during Senior Year)

Cumulative GPA and Total Credit Hours

128

Notes:

EML 3217 Engineering Mechanics - Dynamics is now the new Dynamics course for all ME/AE students (Previously EGN 3321)

EML 4312C Feedback Control and EML 4220 Vibrations Analysis have been split into two parts: EML 4312C Part I and Part II and EML 4220 Part I and Part II. From this breakdown two new courses were created.

- EML 4312C Part I and EML 4220 Part I are now EML 4225 Introduction to Vibrations and Controls
- EML 4312C Part II and EML 4220 Part II are now EML 4313 Intermediate System Dynamics and Controls
