

Fundamentals of Engineering (FE) Exam

The Florida Legislature found that it was necessary in the interest of public health and safety to regulate the practice of engineering in the state of Florida. The Florida Board of Professional Engineers (FBPE) is responsible for reviewing applications, administering examinations, licensing qualified applicants, and regulating the practice of engineering throughout the state.

The FE Exam is one of the requirements to obtain your professional engineering license. *(These exams are overseen and administrated by the Florida Board of Professional Engineers and NOT the University of Central Florida or the College of Engineering & Computer Science.)*

For official information regarding the FE and PE Exams, please visit the FBPE website at: **www.fbpe.org**.

Basic Information:

- The exam takes place twice a year, once in the spring and once in the fall.
- The registration deadline is **SIX MONTHS** before the actual exam.
- The FE Exam is **REQUIRED** for Civil, Construction, Environmental, and Industrial Engineering majors.
- For additional FAQ's please visit the FBPE **FAQ's page**.

Registration:

Registration for the April Exam Dates closes in October*

Registration for the October Exam Dates closes in April*

For exact application deadlines and requirements please view the exam dates document **here.*

After you have applied for the FE Exam with the FBPE you will need to register with The National Council of Examiners to select your testing location. For more information please visit, **www.ncees.org**.

Free Practice Exam!

The National Council of Examiners for Engineering and Surveying has provided a free online, timed practice exam that will evaluate your readiness for the FE Examination. There is no cost to take the online exam but there is a cost for the actual exam.

For more information about this practice exam or other NCEES study materials, visit **www.ncees.org** or email **PEandFEexamquestions@fbpe.org**.
